

iGlobal Forum **Event Safety Statement**

iGlobal Forum will run our global conferences and events with the safety and well-being of our attendees and staff at the utmost of importance. Thus, we will follow the relevant official government and regional guidance at all times.

Please note: All of our attendees and speakers will need to show full proof of vaccination or a recent negative PCR test to be admitted in.

What you can expected at the event:

Health and Safety

- At iGlobal Forum events, there will be handwashing or sanitation stations available and prominent reminders for all attendees to make use of them on a regular basis.
- We will work closely with the venue to ensure that we maintain the highest standards of hygiene and cleanliness.

Social Distancing

- Our events will be set up in such a way to allow social distancing and we may introduce barriers or floor markings to indicate required spacing. Our larger events may see increased spacing between seats in meeting rooms.
- We may manage the flow of participants through the event space with the use of one-way systems and clearly demarcated walking routes.

Keeping all attendees informed

- iGlobal Forum event teams will keep all attendees informed of our health and safety standards, procedures, and event guidance before the start of the event.
- We'll also be updating our event apps, websites and social media channels regularly so you can get real-time information about the event.

Shield

- In order to run events in a COVID-19 conscious environment, we need to ensure that all of our attendees and staff follow all of the guidelines and procedures.
- We will take steps to ensure that our staff are appropriately trained to comply with the relevant local authority, advice, and protocols to deal with any potential instances of COVID-19.

If recommended by the local health authority guidance, we will ask all participants to wear a face covering. Face coverings will be available on arrival should participants not have their own.

Thank you very much for your collaboration.
